

HSP vs PRW Planner Comparison

Benchmarks: blocksworld, depot, gripper, logistics

Students:

Touseeq Danish

Repository:

<https://github.com/Touseeqkh/pddl4j-mcts-planner>

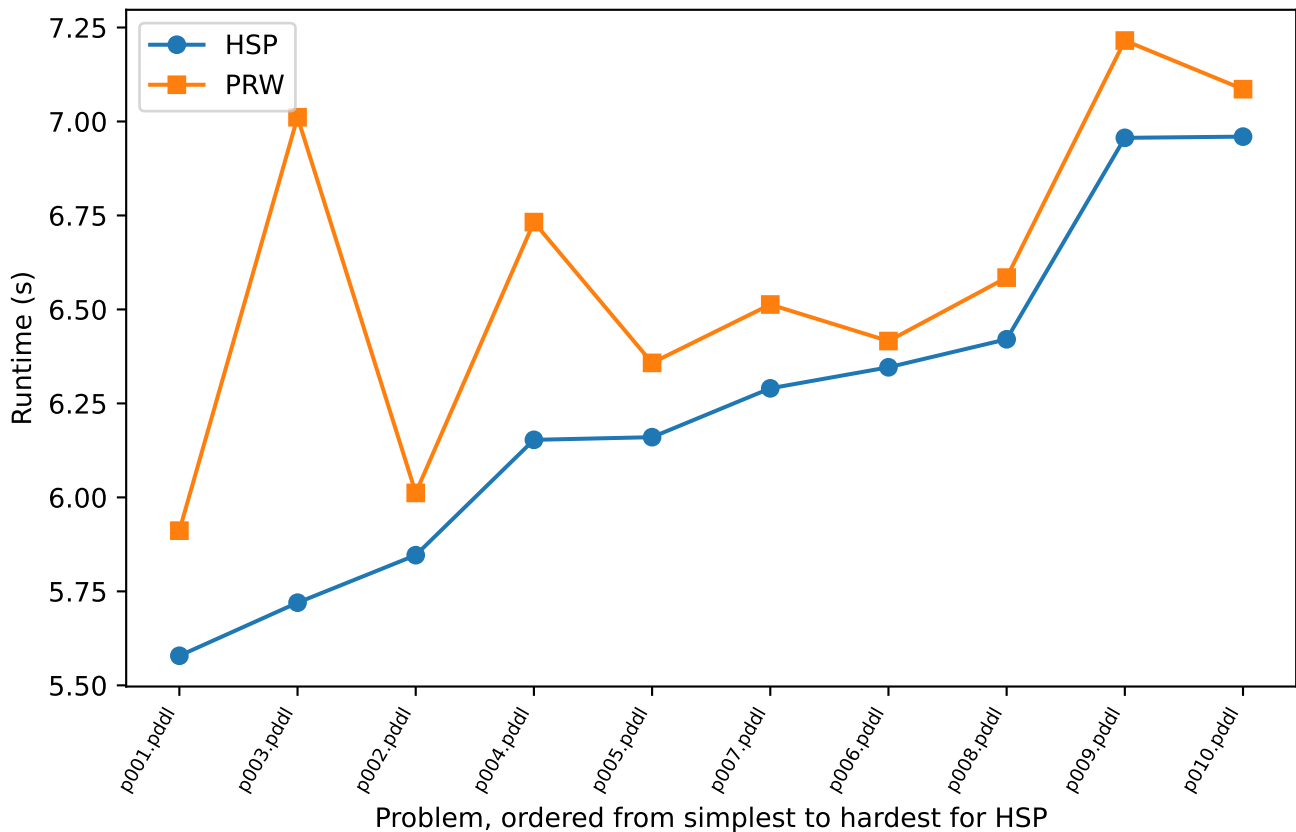

Overall Summary

HSP: solved=22, avg runtime=21.67s, avg makespan=17.05

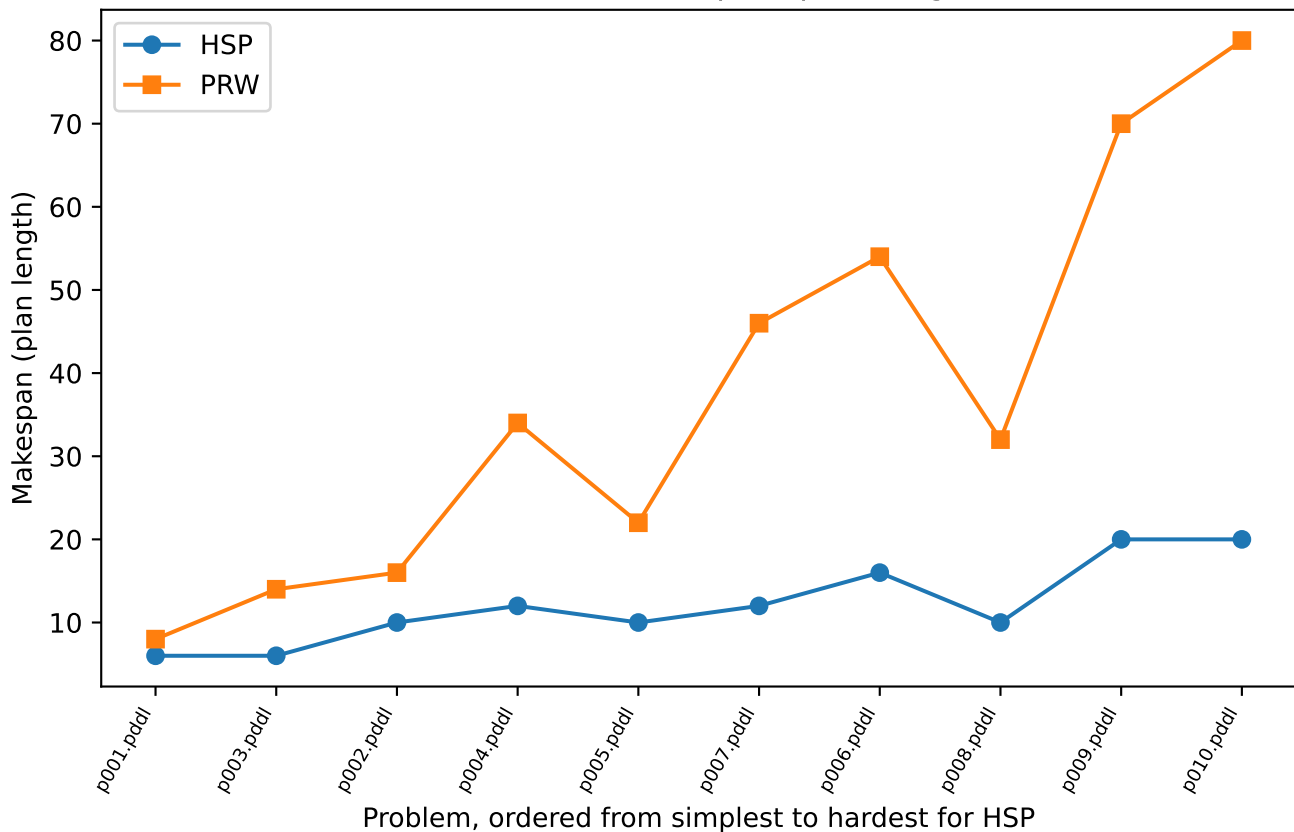

PRW: solved=29, avg runtime=15.64s, avg makespan=102.59

Lower runtime is better. Lower makespan means shorter plans.

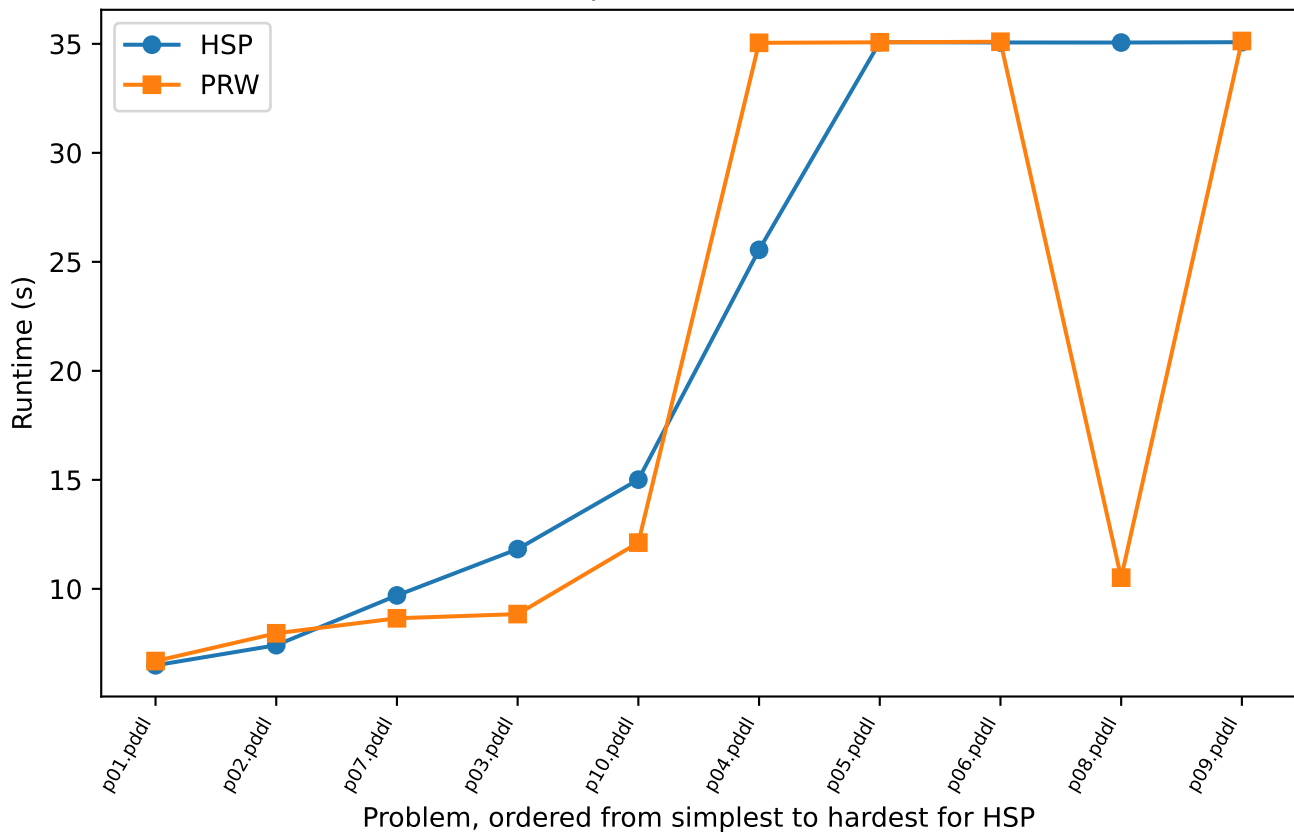

blocksworld: Runtime (s)

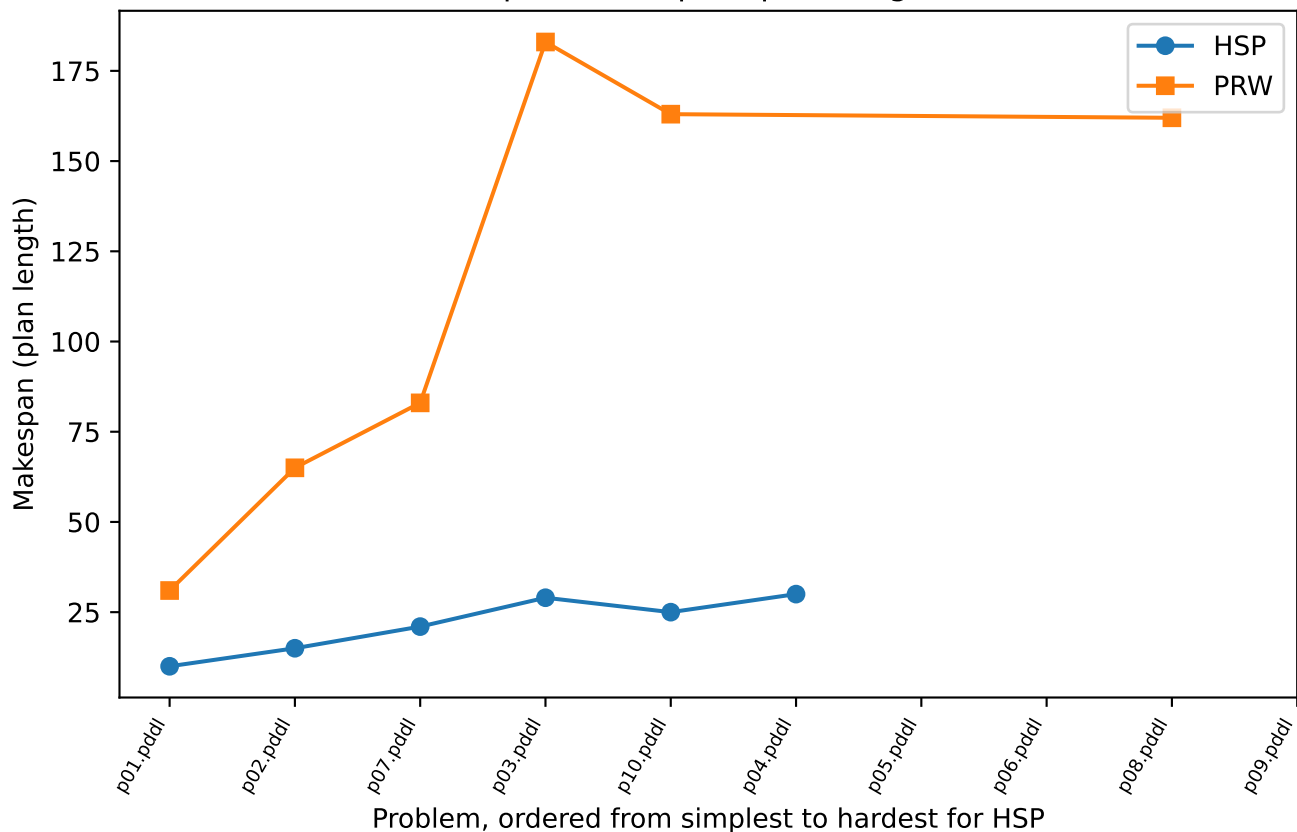

blocksworld: Makespan (plan length)

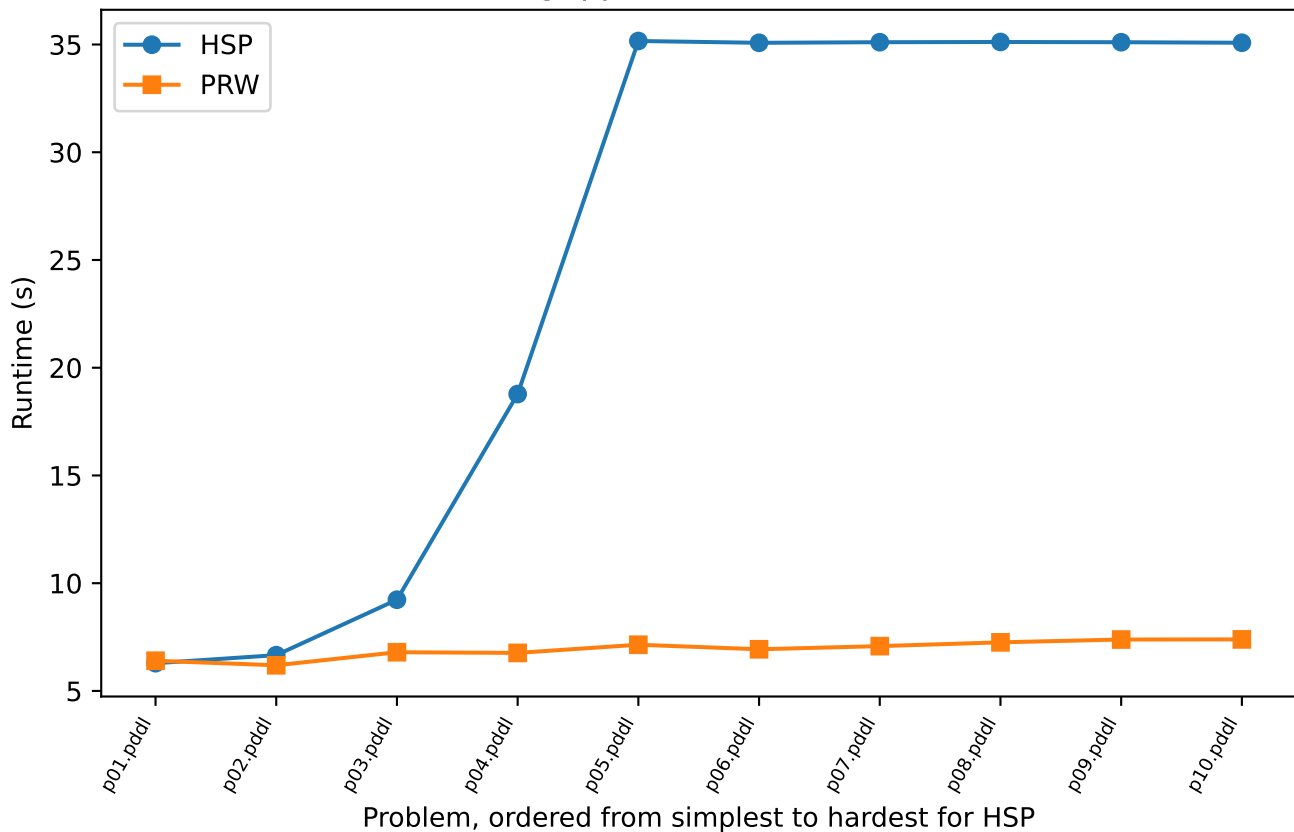

depot: Runtime (s)

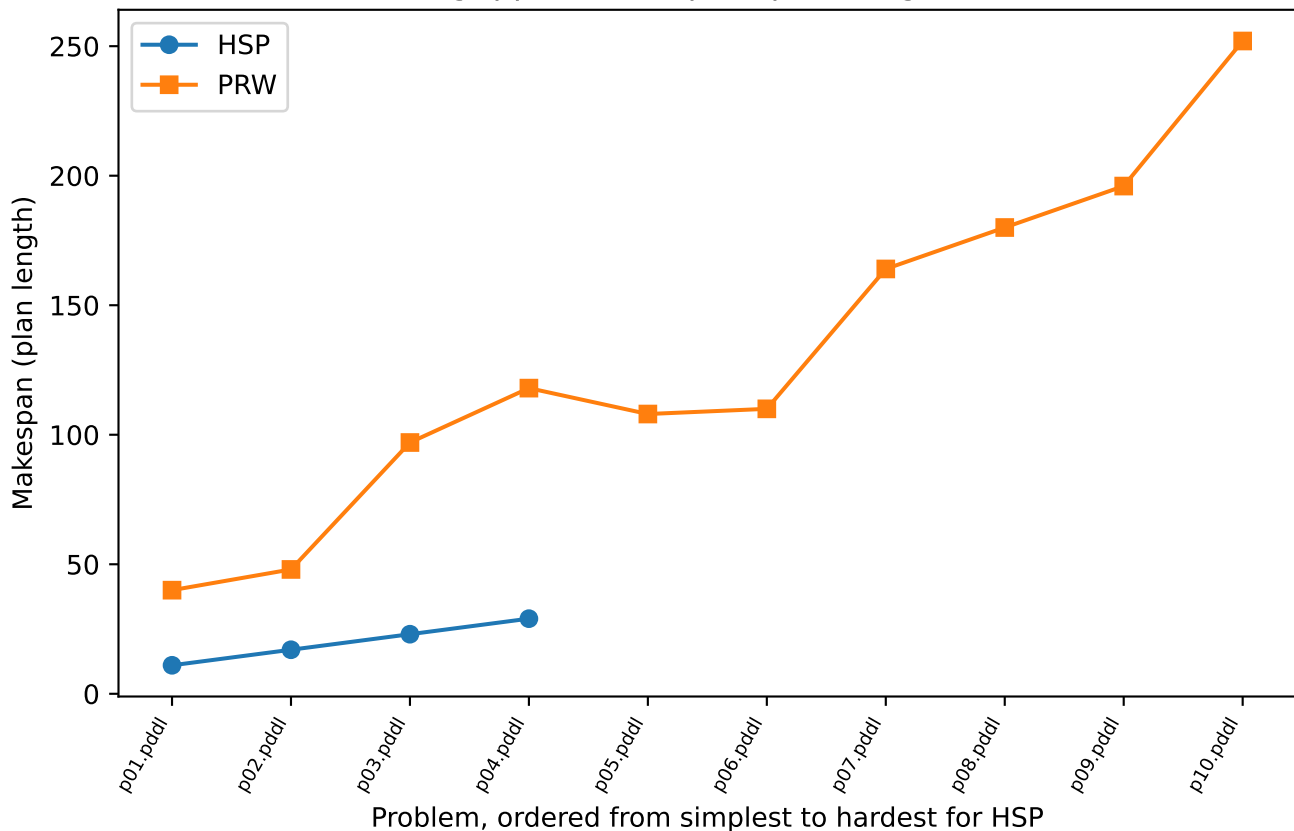

depot: Makespan (plan length)

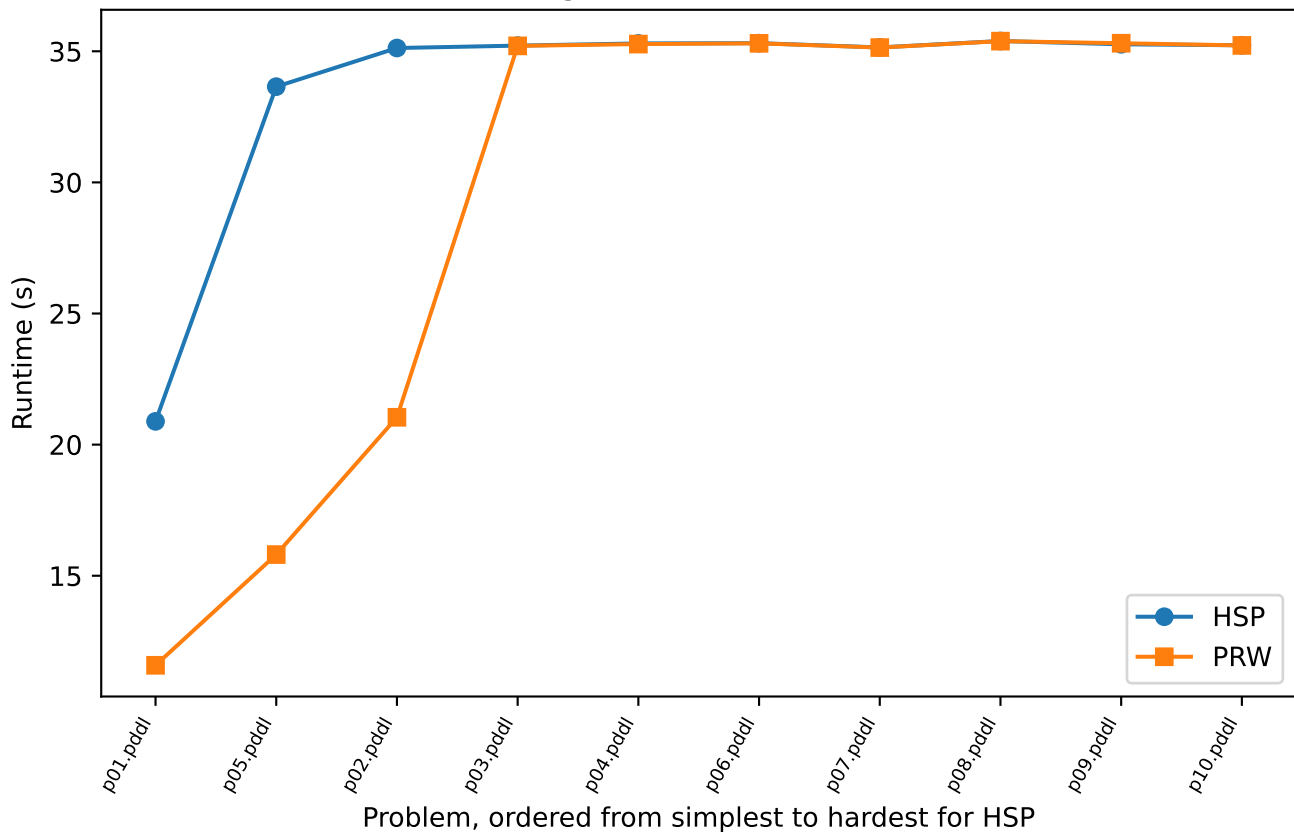

gripper: Runtime (s)

gripper: Makespan (plan length)

logistics: Runtime (s)

logistics: Makespan (plan length)
